Innovations

- Possibility to load a reel on a ply stand when the previous one is still 1 m (40") O.D.
- Loading fully assisted (no effort for operator).

Advantages

- Festoon with big paper storage up with 8 m (26").
- Easy reel loading.
- No paper crack, big rollers on festoon system.
- Powerful driven wheel for angle adjustment.
- Possibility to design it for left or right operation.
- Wide ply separator for large spread on glue pot.

Options

- Motorized reel support.
- Upgradable with automatic splicer.

Features

- Max ply width : 200 mm (8")
- Max reel O.D. : 1600 mm (64")
- Splicing speed : up to 100 m/min (350 Ft/min)

Higher speed with automatic splicer
